After a life filled with jihad in Allah's cause and support for *Shari'ah*

The Martyrdom of Shaykh Tariq ad-Dhahab and his younger brother in Rada'a

Shaykh Tariq ad-Dhahab (may Allah have mercy on him)

Shaykh Tariq ad-Dhahab passed away by Allah's will as a *shahid* immediately after he was shot in his homeland of al-Manaasih. The incident took place after midnight on *al-Khameess* day; 24th Rabi'ul-Awwal of this year. He was assassinated by his half-brother Huzaam ad-Dhahab who is a loyalist of Sana'a's government.

On that night, the killer proceeded to one of the village's *masajid* where some of the mujahideen of the Supporters of *Shari'ah* attended. He then attempted to get them out by force, something which required Sheikh Tariq to go out and stop him. At doing so, the killer instantly and unexpectedly opened fire on Shaykh Tariq causing him at once to breathe his last. The killer fled away as a number of the mujahideen chased him and then besieged his house so to capture him but he refused to surrender himself, the thing which started a severe armed clash that resulted in the killing of one mujahid. The mujahideen then evacuated the neighbouring houses to avoid harming the innocent families. Thereupon, they blew up the house which the killer had well-fortified in using a booby-trapped vehicle, the matter which caused his death.

In connection to that, Shyakh Tariq's nephew who is named "Ali ad-Dhahab" had - following his father's killing- killed his uncle "Ahmad ad-Dhahab" - Shyakh Tariq's younger brother. The mujahideen were able to establish *Qisas* - *Shari'ah* penalty - on Ali ad-Dhahab during his fortification in his house.

In a recent statement made by Al Qaeda in the Arabian Peninsula, it reads: "In this incident, the leader Shaykh Tariq ad-Dhahab who is of *Qurayshi* lineage was martyred along with his brother Ahmad as well as the mujahid brother Ali al-Qydi . Their martyrdom came after a journey filled with support for *Shari'ah* and the religion. They were killed by those payees of the treacherous government of Sana'a."

Brother: Ahmad ad-Dhahab (may Allah have mercy on him)

Brother: Ali al-Qydi (may Allah have mercy on him)

The statement also stated: "Shaykh Tariq - may Allah have mercy on him- was well-known for arbitrating to and applying Allah's *Shari'ah* among the tribes. His house was a shelter for the oppressed and a resting place for the grieved ones. The respected leader was known for his sound opinions, high moral qualities, patience and tolerance. He came from a generous, kind and brave family. And indeed, these are the noble traits that are passed down generations from fathers to sons. This is the pride of this world and the Hereafter, may Allah have mercy upon them and raise their status in paradise".

In an interview made by the journalist abdul-Razzaaq al-Jamal

Shaykh Fahad al-Qus'o: The presidential election is a filthy political game that is being played on the nation to steal their uprising's outcome

Shaykh Fahad al-Qus'o (may Allah protect him)

Shaykh Fahad al-Qus'o - a leader in AQAP says: "The presidential election is a filthy political game that is being played on the nation to steal their uprising's outcome."

Shaykh Fahad inquired in an interview with abdul-Razzaaq al-Jamal saying:" if this isn't the case about this election, then tell me, who is the only candidate for this election whom the people are supposed to trust? Who is abdu-Rabbo Mansoor? Isn't he the other face of Ali Saleh? Hasn't he been for the past one and a half decade the obedient slave and the executor of Ali Saleh's decisions? Who brought abdu-Rabbo Mansoor but the American ambassador to Yemen who is the actual ruler of Yemen and the Gulf countries? Have they not always been against the nation's interest?!."

Al-Qus'o added:" The democratic game is rejected by us on the basis of *Shari'ah*, because it is based on the ruler-ship of the people by the people and also based on majority votes. And this is a contention with Allah's exclusive right to rule His creation. Therefore, the sovereign authority should be for Allah alone, not to democracy which in reality has proved that it only legislates for injustice, corruption, tyranny and autocracy, especially in the Arab countries. We want these sides and parties whether they are currently in authority or in the opposition to be away from controlling the fate of the helpless people in order that they could implement and rule by the Islamic *Shari'ah* instead of the options of the American regency council." He added: "We reject these absurd elections and we consider them null and void. We wouldn't be satisfied for the Muslims to participate in this falseness; hence never will we allow it in our territories!".

Shaykh Fahd remarked with regard to the future of American intervention in the Yemeni internal affairs by saying: "America wants to take advantage of the wide margin that is being given by the opposition's leadership as a price of acceptance in the political game. Generally speaking, the Americans don't operate except through an internal political body. Also depend militarily on human elements (Informants) to direct airstrikes and select targets. Because of that the Americans' policies won't achieve except failure. The more their airstrikes increase, the more people turn to and join the mujahideen. This is time-tested and has been taking place for the past two years; this is so because from the Muslims' perspective, America won't represent anything but evil, oppression and falsehood. Hence, the Muslims will slowly but surely reach to the conclusion that America in its war on al Qaeda is actually fighting against goodness, justice and truth."

In his reply to a question with relation to Shaykh Tariq's martyrdom, he said: "The firsthand convict is his half-brother Huzaam. Huzaam was a client of Sana'a's regime and everybody knows it. And the case of Shaykh Tariq is a bigger issue than brother's dispute or family's issue. The Shaykh was a tribal prominent personality who gave a practical application of Shari'ah among the tribes of his regions. He is a source of pride for all of Rada'a's tribes. A lot of people in those regions had united with him in support for the religion and establishment of *Shari'ah*. I think that was the real reason that caused his killer to kill him. We consider him one of the martyrs of Islam -may Allah accept him."

Mind-blowing details on the spies' scandal made public for the first time

The Saudi Intelligence attempted to eliminate its Spy after his arrest!!

High official source of the Supporters of *Shari'ah* disclosed a failed attempt made by the Saudi Intelligence to eliminate their spy "Ramzi al-Areeqi" after he was exposed and arrested by the mujahideen.

The source said:"Ramzi was able through a coded message to inform the Saudi intelligence that his task was exposed that is after the mujahideen ordered him to communicate with the Intelligence of Riyadh in order to provide them with misleading information. The Intelligence had no choice but to try to eliminate him by an airstrike after they were certain of his captivity by the mujahideen who were alerted and had taken the necessary security precautions, something which they succeeded in doing by the grace of Allah". The spokesman indicated that this habit of the tyrants' Intelligence bodies which exploit the maximum of their agents to achieve their interest and when their agents are exposed it abandons them, even attempt to kill them lest their capture harms them."

He added,:"The mujahideen - with success granted by Allah - placed the spy al-Areeqi under surveillance since his arrival to the emirate of Waqaar."

The source confirmed that the investigation with the three spies (al-Areeqi, al-Jaamili and an-Naqeeb) who were executed by the Supporters of *Shari'ah* last month have provided the mujahideen with classified information with regard to the intensive intelligence activity that is made by the United States and al-Saud state in their framework of fighting the mujahideen in the Arabian Peninsula. Pointing out that among these information is the involvement of some tribal chiefs and those weak-willed ones (refusing to reveal their names for security reasons) in pinpointing crucial sites in the land of faith and wisdom for the benefit of the U.S. and al-Saud as a preliminary step toward bombarding the located sites with their air force in return for few dollars that these traitors receive in exchange for their lowness and hireling.

A group of Muslims gather to witness the execution of a spy

On his part, the security officer of the mujahideen explained that a trusted tribal source had confirmed to the Supporters of *Shari'ah* the involvement of "Ali Saeed bin M'aily" – The man responsible for recruiting the spy "al-Jaamili"– in observing the movements of Shaykh Ali al-Harithy - may Allah accept him- for the U.S. intelligence services, the matter that helped targeting him in an airstrike by an unmanned drone in 2002. The tribal source confirmed further that "Ali Saeed" communicates directly with the joint American operational room which executes the bombing with this type of planes.

The official of *ash-Shari'ah* Supporters source concluded: "We give glad tidings to the Muslims and assure them that America and their agents – by the grace of Allah – can't do more than what they have done to terminate the establishment of *Shari'ah* on the land of Yemen. Their mere goal is to terrorize the Muslims using their attacking drone aircrafts which cannot operate except with a network of spies and agents on the ground providing them with updated information and coordinates of sites or plant for it chips which is essential for it to operate, something which the mujahideen have successfully neutralized after dismantling the latest spying network.

In retaliation for the killing of al-Haj Saeed bin Khursaan by the regime of Sana'a

A martyrdom operation targeting the army's command center in Ma'rib

A number of officers and soldiers of the forces of Sana'a's government were killed in a martyrdom operation carried out by the Supporters of *Shari'ah* targeting a command centre for launching military expeditions on *al-Arbia'a* day; 23rd Rabi'ul-Awwal.

Al-Haj Saeed after his martyrdom

An image of the operation at the time of its execution

The Amir of the Supporters of *Shari'ah* in Ma'rib confirmed that the operation was executed by brother abu Naseer Galib as-Swai'ary (may Allah accept him) in retaliation for the killing of the martyr - by Allah's will- al-Haj Saeed bin Khursaan who was killed by the forces of Sana'a's government last month. The Amir indicated that the location of the operation was al-Daiq junction where there was the command site that is known for its military expeditions on the areas of al-Jad'an and Jaham, aiming to hold sway over the residents of Ma'rib state as well as tracking the mujahideen and bearing down heavily upon them on the pretext of securing the roads and removing the checkpoints of " highway robbers" which are still existing near the military base.

The Amir explained that al-Haj -may Allah have mercy on him- was successful in clearing the main road in the region from these oppressive checkpoints. Al-Haj also supervised the connection of electricity poles that extends along the main road. The Amir pointed out that the mujahideen have been widely spreading in the area of al-Jad'an and that they - on the background of the army's assaults- have carried out a surprising attack using light weapons on Sana'a's government forces presence in the area. The raid resulted in the killing of many soldiers and the martyrdom of al-Haj Saeed.

The Amir added: "As we claim responsibility for the operation, we confirm that the blood of the mujahideen who demanded the implementation of *Shari'ah* would never be in vain. And as we have been fighting the agent Ali Saleh we will fight any other agent coming after him as long as they abandon the *Shari'ah* and remain loyal to the enemies of Allah, among the Jews or Christians... We also warn our Muslim brothers from being dragged into the American projects in the region and their assistants' by repeating the failed practiced plan in Iraq; where the Americans made for them human shields and agents from among the tribes to fight on their behalf under misleading and false slogans in exchange of a worthless price of this worldly life ".

The Amir concluded: "At the same time, we affirm that we will repel the aggression in the same manner and in any way that will deter the aggressors and prevent their harm. This is after we have frequently forewarned of that. We also warn the common people from riding standard or military vehicles that belong to military, intelligence, spies and Houthis affiliates and from approaching their gatherings in order to ensure their safety and to preserve their blood."
